Officers, and soldiers as well, bave done
rectirat work, but I have faith to believe
that still greater efforts will be forth so
that we shall soon reach that 30,000.

The tide evidently seems to be turning to the favor of our Eastern Brigadier, for this seek he saids no less than SC, and, of course, still stands monatch of all be surviya. The E.O. and Q. Brigado, as well as the West Ontario Brigado, romains in the Same position and they compled last week. Dephiless they will rise in the most future.

New for an eye-openor. The Central any weeks, is at list going down. It was a bad falt, too. However, its Brigadier all recover yet.

Again the Western Brigade rises, and II Lam not vary much mistaken, Brigadier Sponer will yet have to full at Major forts' feet. Vory humiliating this will be, but I verily believe it will take place. The Hamilton Brigado has added a few spain this week, but not enough to ratrieve its good character. Brigadier Spooter all, however, see to this, and I will leave it in his hands.

It would be a good iden for each Briga-dier to not at once with required to the pooled "Exhibitation and Auniversary WAR Car." I bolleva the Edditor has written to each of them about this. It will be to bold wreates to ingresse external round.

# However, from what I know about the matter for this special issue, it will be a beauty in every respect, and should sell like hot cakes, all over the country.

Up to the present time no D.O. has been lound who can knock Adjt. Addle off his pedestal. Whet a marvel if D.O. Grayson accomplishes this last!

Staff-Capt. Sweetman will have to pick up if he means to set abeed of Staff-Capt. Grayson. He really can do so if he rouses his F.Os. to husinoss on this line. At least, I think so.
